Surandai, Tenkasi District.

CAREER OBJECTIVE

I enjoy building web applications that solve real-world problems and improve user experience. As a final-year Information Technology student, I am looking for an opportunity to begin my career in Full Stack Web Development. I want to apply my knowledge of the MERN Stack to build responsive, user-friendly web applications while learning from experienced professionals and contributing to meaningful software projects.

ABOUT ME

Passionate B.Tech Information Technology student with a strong interest in Full Stack Development, Web development, MERN Stack and modern web technologies. I enjoy designing and developing responsive web applications that solve real-world problems. Through academic projects and internships, I have built a solid foundation in the MERN Stack and continuously improve my skills by exploring new technologies, writing clean code, and working collaboratively with teams.

EDUCATION

B.Tech - Information Technology (Final Year)

JP College of Engineering, Ayikudy, Tenkasi Dt.
2023 - 2027 |

Database : • MongoDB • MySQL
Tools : • Git • Github • VS Code
Soft Skills : • Teamwork • Adaptability • Quick Learner • Communication

INTERNSHIP

MERN Stack Developer Intern (July 2026)

Techvolt Software, Coimbatore.

- Successfully completed MERN Stack training with hands-on learning in frontend, backend, database and API integration.

Java Full Stack Intern (Jan 2026 - Mar 2026)

Vinsup Infotech, Ayikudy.

- Completed hands-on training in Java Full Stack Development and gained knowledge of Java, SQL, frontend technologies and application development concepts.

Hardware & Networking Intern (July 2025)

Daphne Infotech, Chennai.

- Gained practical knowledge in CPU assembling, trouble shooting and basic system maintenance in a real-time work environment.

ACADEMIC PROJECTS

Smart Internal marks management system

- Built a multi-page responsive website automatically calculates total marks and showcase the marks of students and send messages to parents.

E-commerce website

- Developed a responsive E-Commerce website using HTML, CSS, and JavaScript with features such as product listing, shopping cart, and user-friendly interface.

Mini Games

- Tic-tac-toe: A simple two-player game created using HTML, CSS and Javascript to practice game logic and user interaction.
- Tile Match: Created a tile match game using HTML, CSS and Javascript with score tracking.
- Hen Game: Built an egg-catching game using HTML, CSS and Javascript with increasing levels and score tracking.
- Typing- dodge game: Developed a typing speed game using HTML, CSS and Javascript where players type falling words before losing lives.

Portfolio

- Designed and developed a responsive personal portfolio using HTML, CSS, Javascript and bootstrap to showcase my projects, skills and achievements.
